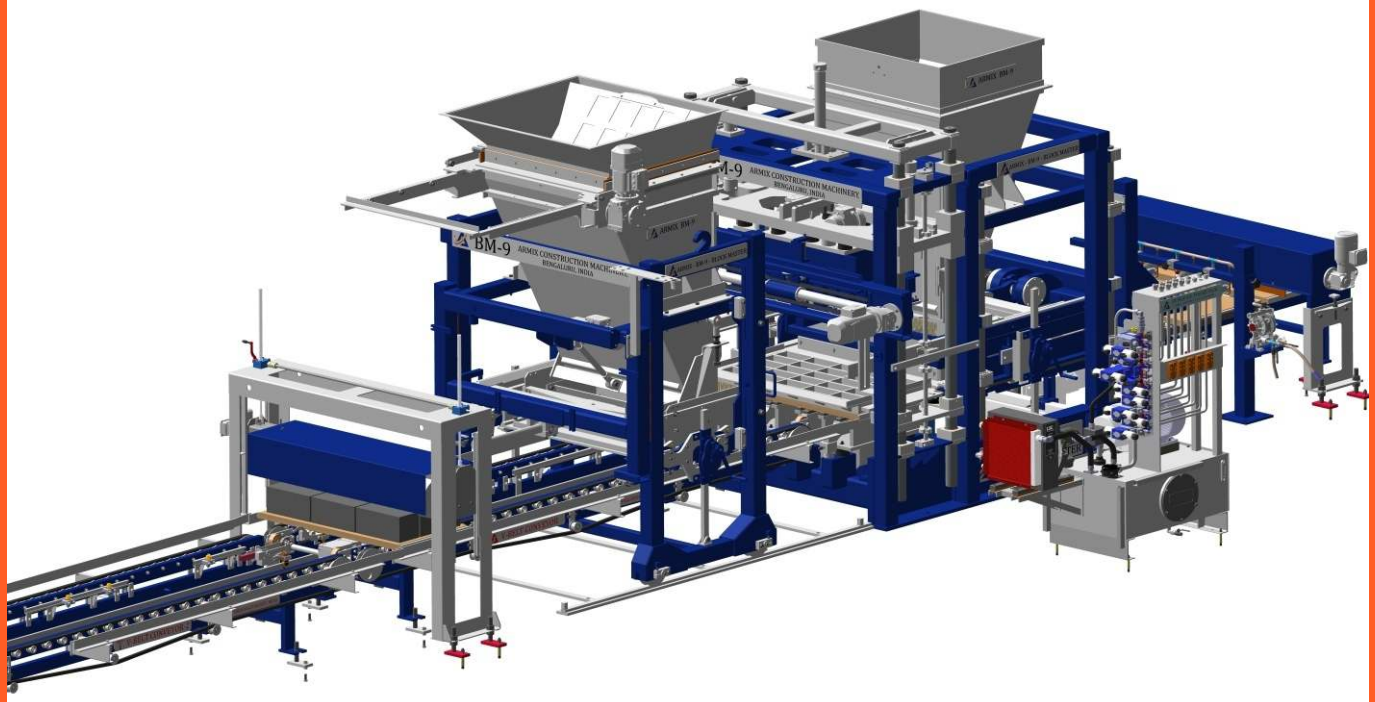
FORMERLY FOREST PRESS

Block Machine -BM 9



Machines of the BM 9 are equiped - with the proven technology. The production area is available from 9 to 12 blocks per Cycle. The high quality results derived from advanced vibration technology and height control precision are now possible across a wide range of products, from 40mm pavers to 200 mm high wall units.

- Fully automatic mold change with height adjustment mechanism
- Designed to use existing foundation
- Suitable to use existing molds
- Operator controls with complete diagnostics
- The dimensional accuracy and high density for improved durability

Technical data*

	BM 9
production board (mm)**	1300 x 670
production area (mm)**	1250 x 630
min. product height (mm)	25
max. product height (mm)	250
dead weight approx. (kg)	9000
cycle time (s)	18

*Production capacities are calculated on 85% basis and depend on machine configuration, used recipes, raw materials, pallet handling, mold characteristics as well as utilized production boards. Technical Data are subject to change. **other production board sizes available.

BM-9 FULL AUTOMATIC LAYOUT With Production Details
